

# SOLUTIONS

for the global wind industry

The Lafert Group is a leading European motor company that has built a reputation for the manufacture of customised and specially engineered Electric Motors and Drives. Focusing on the areas of Industrial Automation, Energy saving and Wind Industry, Lafert, with a proven track record, is the preferred partner for many of the world leaders within the Wind Industry.

The primary benefit of installing Lafert motors is to reduce the lifecycle cost. Lafert have a strong focus on quality and lifetime reliability, this combined with the challenge of continuous improvements in motor efficiencies puts Lafert in a strong position as the partner of choice.
